SUMMARY

Results-driven FullStack Developer with **3+ years** of expertise in **JavaScript/TypeScript, React, Node.js**, and **Next.js**, specializing in scalable SaaS solutions and high-performance web apps. At 1moment.io, optimized landing page load times by 30% through code refactoring and caching strategies, enhanced SEO through optimizations (SSR, dynamic sitemaps, page metadata), boosted overall performance, and led features development. Delivered 10+ lightweight landing pages as a freelance developer, prioritizing responsive design and SEO-friendly practices. Eager to bring end-to-end problem-solving to teams building impactful products.

EXPERIENCE

Full-Stack Developer at 1moment.io

06/2024 - present

- Improved SEO performance and site's indexability by utilizing meta tags, robots.txt, sitemaps and other techniques.
- Designed and implemented key features, including an advanced review system using Next.js, Typescript, tailwind.
- Developed and maintained an interactive landing page, focusing on responsive design and user experience.
- Refactored existing code to improve readability, performance, and scalability.
- Followed OOP principles, applying SOLID and DRY methodologies to maintain clean, modular, and maintainable code.
- Worked on tasks aimed at optimizing the app's performance and enhancing overall functionality.

Front-End Developer at Energy Schools Complex

01/2024 - 06/2024

- Developed an online examination system using TypeScript, React.js, axios, WebSocket, MobX and Material UI.
- Worked closely with the backend team to ensure seamless data integration and real-time updates via WebSockets.
- Utilized Git and GitHub for version control, managing code efficiently within a team environment.
- Leveraged Docker for containerization, streamlining the development and deployment.

Freelance Web Developer

06/2023 - 12/2023

- Designed and developed user-friendly landing pages to attract and engage new users.
- Implemented responsive designs across all devices, maintaining consistent performance and usability.
- Built lightweight, fast-loading pages with clean HTML, CSS, and JavaScript, improving SEO and clients satisfaction.
- Managed projects lifecycle, including requirements gathering, wire-framing, development and deployment.
